**--Not Too Late To Lower Costs For Your College-Bound Senior!--**

You and your college-bound child are excited about their college future, and you want to provide all the support you can. Do you still feel financially unprepared for college? Or do you have savings but wonder if there are scholarships or other ways to cut college costs?

Please join us for this FREE Educational College Financial Planning Seminar. It's meant to supplement and go beyond the college workshops and fairs you have already attended. You will come away with practical actions you can take to realize less cost, less borrowing, and less time/frustration managing the college process, so you can get your student to the right college at the right price!

In this workshop, you will learn:

- **How to pick colleges that will give you the best financial aid and scholarship packages**, plus insight into how to send your child to an expensive private university for *less* than a state school.
- How the financial aid process works so your student **avoids losing aid/scholarships for which they qualify**, specifically reviewing actions you must take **BEFORE & AFTER** filing the FAFSA
- **How to comfortably pay for college if you don't have enough saved** without cancelling all vacations, relying on expensive private student loans or raiding your retirement accounts.
- How to **reduce the cost of college even if you don't think you qualify for financial aid.**

We look forward to sharing these valuable insights with you!
